

2021 Point-in-Time Data

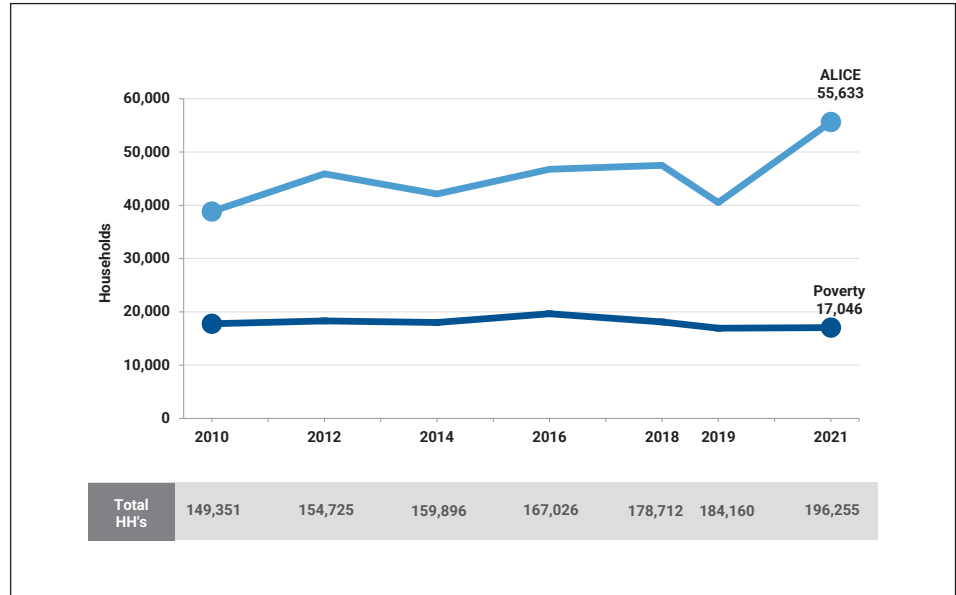

Population: 511,931 • **Number of Households:** 196,255 (7% change from 2019)
Median Household Income: \$79,279 (state average: \$66,474)
Labor Force Participation Rate: 64.8% (state average: 63.1%)
ALICE Households: 28% (state average: 32%) • **Households in Poverty:** 9% (state average: 11%)

Financial Hardship Changes Over Time

ALICE is an acronym for **A**sset **L**imited, **I**ncome **C**onstrained, **E**mloyed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the county (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

As circumstances change, households may find themselves below or above the ALICE Threshold at different times. While the COVID-19 pandemic brought employment shifts, health struggles, and school/business closures in 2021, it also spurred unprecedented public assistance through pandemic relief measures. In 2019, 57,447 households in Ada County were below the ALICE Threshold; in 2021 this number changed to 72,679, (a 27% change).

Households by Income, Ada County, 2010–2021

The Cost of Basics Outpaces Wages

The Household Survival Budget reflects the minimum cost to live and work in the modern economy and includes housing, child care, food, transportation, health care, a smartphone plan, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the county level and varies by household composition, as costs can vary greatly depending on location and household needs.

In 2021, household costs in Ada County were well above the Federal Poverty Level of \$12,880 for a single adult and \$26,500 for a family of four.

Financial Hardship is Not Evenly Distributed

Groups with the largest number of households below the ALICE Threshold tend to also be the largest demographic groups. However, when looking at the percentage of each group that is below the ALICE Threshold, some groups are more likely to be ALICE than others.

By addressing the disparities in financial hardship by county demographics, community members can move toward more equitable solutions.

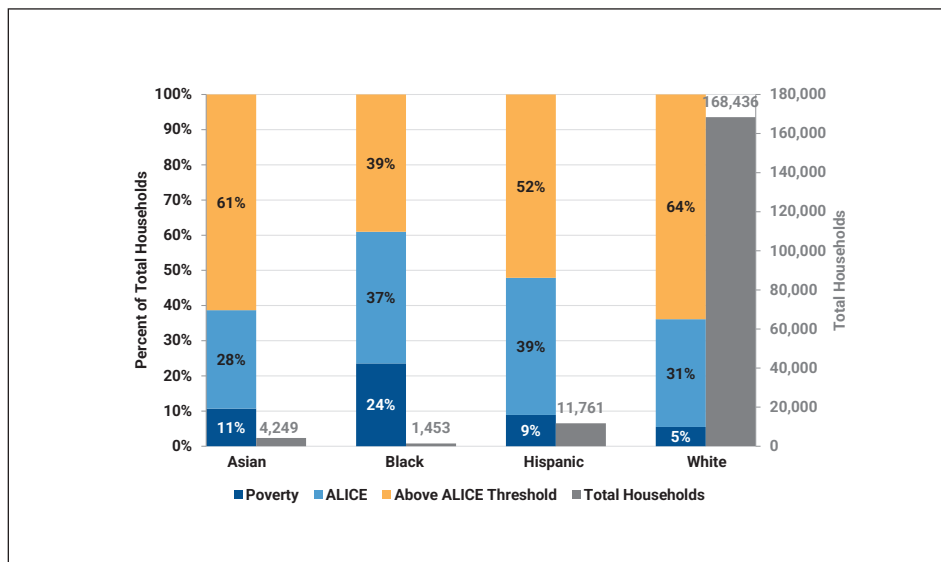

Visit UnitedForALICE.org/Idaho to view more national, state, and county data.

Financial Hardship is Not Evenly Distributed

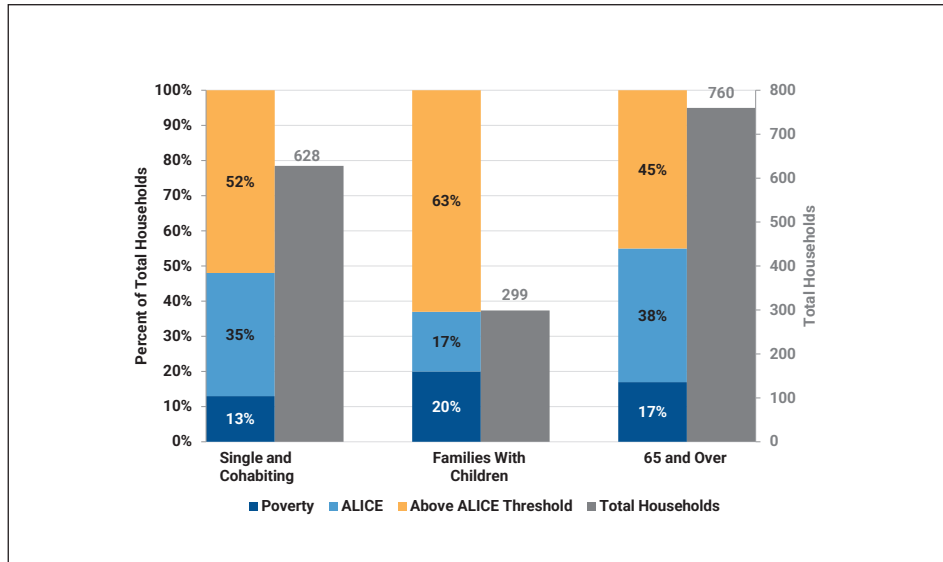

Groups with the largest number of households below the ALICE Threshold tend to also be the largest demographic groups. However, when looking at the percentage of each group that is below the ALICE Threshold, some groups are more likely to be ALICE than others.

By addressing the disparities in financial hardship by county demographics, community members can move toward more equitable solutions.

Visit UnitedForALICE.org/Idaho to view more national, state, and county data.

Household Financial Status by Household Type, Blaine County, 2021

Source: ALICE Threshold, 2021; American Community Survey, 2021

Household Financial Status by Race/Ethnicity, Blaine County, 2021

Note: All racial categories except Two or More Races are for one race alone. Race and ethnicity are overlapping categories; the Asian and Black groups may include Hispanic households. The White group includes only White, non-Hispanic households. The Hispanic group may include households of any race.

2021 Point-in-Time Data

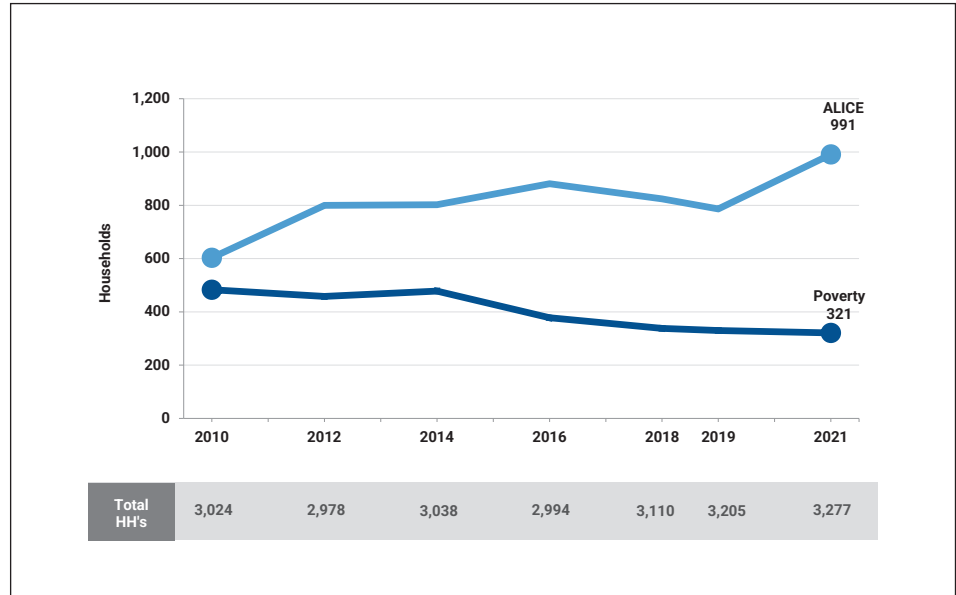

Population: 7,549 • **Number of Households:** 3,277 (2% change from 2019)
Median Household Income: \$64,125 (state average: \$66,474)
Labor Force Participation Rate: 50.4% (state average: 63.1%)
ALICE Households: 30% (state average: 32%) • **Households in Poverty:** 10% (state average: 11%)

Financial Hardship Changes Over Time

ALICE is an acronym for **A**sset Limited, **I**ncome Constrained, **E**mployed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the county (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

As circumstances change, households may find themselves below or above the ALICE Threshold at different times. While the COVID-19 pandemic brought employment shifts, health struggles, and school/business closures in 2021, it also spurred unprecedented public assistance through pandemic relief measures. In 2019, 1,116 households in Boise County were below the ALICE Threshold; in 2021 this number changed to 1,312, (a 18% change).

The Cost of Basics Outpaces Wages

The Household Survival Budget reflects the minimum cost to live and work in the modern economy and includes housing, child care, food, transportation, health care, a smartphone plan, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the county level and varies by household composition, as costs can vary greatly depending on location and household needs.

In 2021, household costs in Boise County were well above the Federal Poverty Level of \$12,880 for a single adult and \$26,500 for a family of four.

Financial Hardship is Not Evenly Distributed

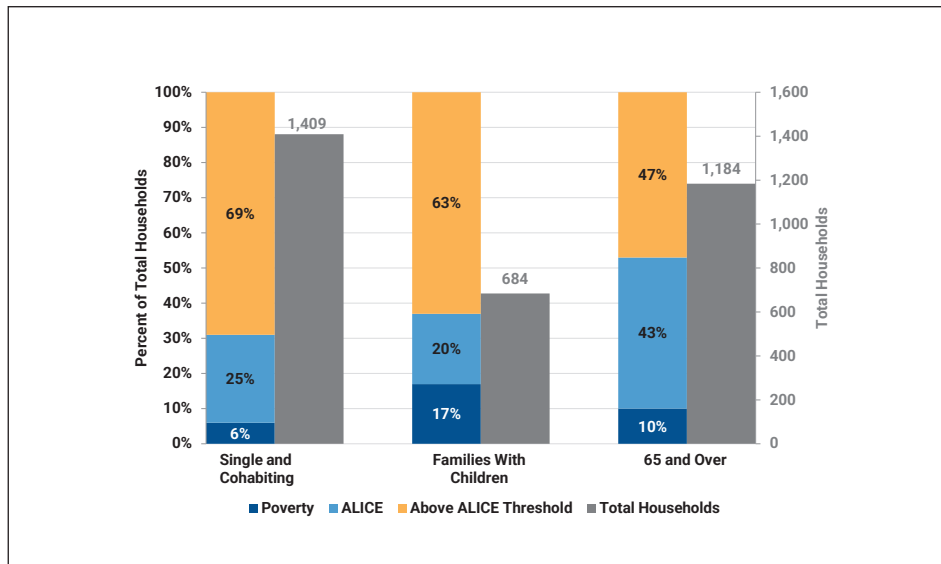

Groups with the largest number of households below the ALICE Threshold tend to also be the largest demographic groups. However, when looking at the percentage of each group that is below the ALICE Threshold, some groups are more likely to be ALICE than others.

By addressing the disparities in financial hardship by county demographics, community members can move toward more equitable solutions.

Visit UnitedForALICE.org/Idaho to view more national, state, and county data.

ALICE IN CARIBOU COUNTY

2021 Point-in-Time Data

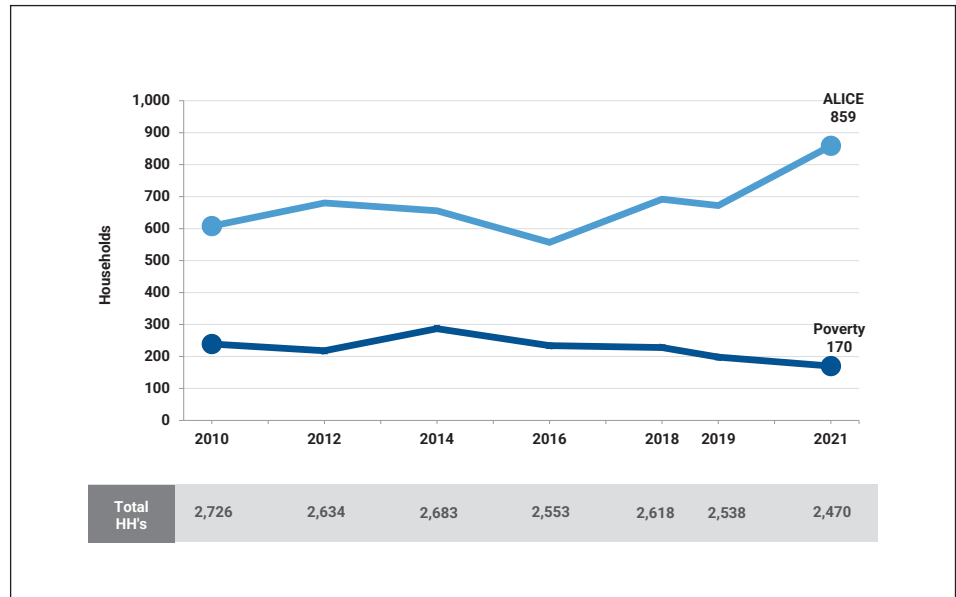

Population: 7,003 • **Number of Households:** 2,470 (-3% change from 2019)
Median Household Income: \$65,528 (state average: \$66,474)
Labor Force Participation Rate: 63.3% (state average: 63.1%)
ALICE Households: 35% (state average: 32%) • **Households in Poverty:** 7% (state average: 11%)

Financial Hardship Changes Over Time

ALICE is an acronym for **A**sset **L**imited, **I**ncome **C**onstrained, **E**mloyed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the county (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

As circumstances change, households may find themselves below or above the ALICE Threshold at different times. While the COVID-19 pandemic brought employment shifts, health struggles, and school/business closures in 2021, it also spurred unprecedented public assistance through pandemic relief measures. In 2019, 870 households in Caribou County were below the ALICE Threshold; in 2021 this number changed to 1,029, (a 18% change).

Households by Income, Caribou County, 2010–2021

ALICE Households: 27% (state average: 32%) • **Households in Poverty:** 14% (state average: 11%)

Financial Hardship Changes Over Time

ALICE is an acronym for **A**sset Limited, **I**ncome Constrained, **E**mloyed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the county (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

As circumstances change, households may find themselves below or above the ALICE Threshold at different times. While the COVID-19 pandemic brought employment shifts, health struggles, and school/business closures in 2021, it also spurred unprecedented public assistance through pandemic relief measures. In 2019, 1,585 households in Franklin County were below the ALICE Threshold; in 2021 this number changed to 1,844, (a 16% change).

The Cost of Basics Outpaces Wages

The Household Survival Budget reflects the minimum cost to live and work in the modern economy and includes housing, child care, food, transportation, health care, a smartphone plan, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the county level and varies by household composition, as costs can vary greatly depending on location and household needs.

In 2021, household costs in Franklin County were well above the Federal Poverty Level of \$12,880 for a single adult and \$26,500 for a family of four.

Financial Hardship is Not Evenly Distributed

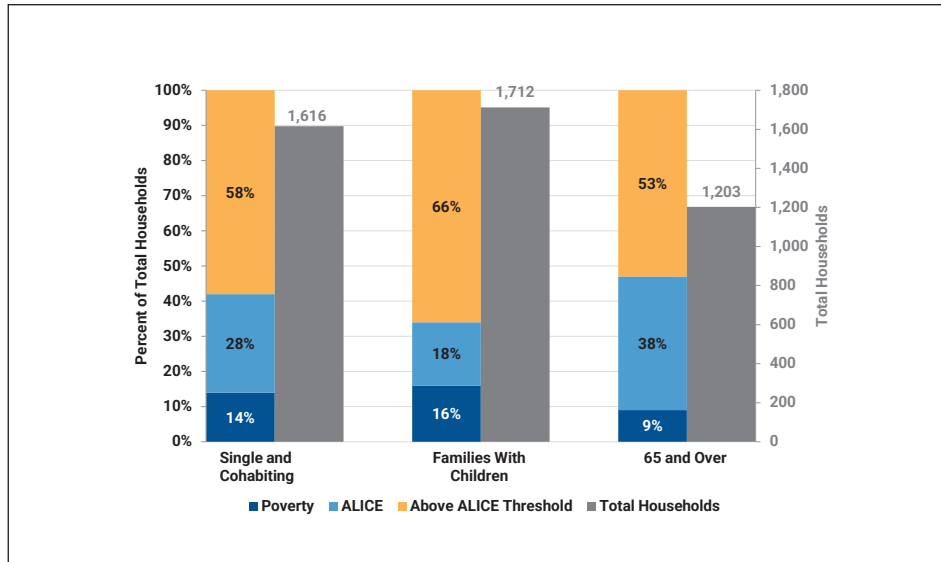

Groups with the largest number of households below the ALICE Threshold tend to also be the largest demographic groups. However, when looking at the percentage of each group that is below the ALICE Threshold, some groups are more likely to be ALICE than others.

By addressing the disparities in financial hardship by county demographics, community members can move toward more equitable solutions.

Visit UnitedForALICE.org/Idaho to view more national, state, and county data.

ALICE IN KOOTENAI COUNTY

2021 Point-in-Time Data

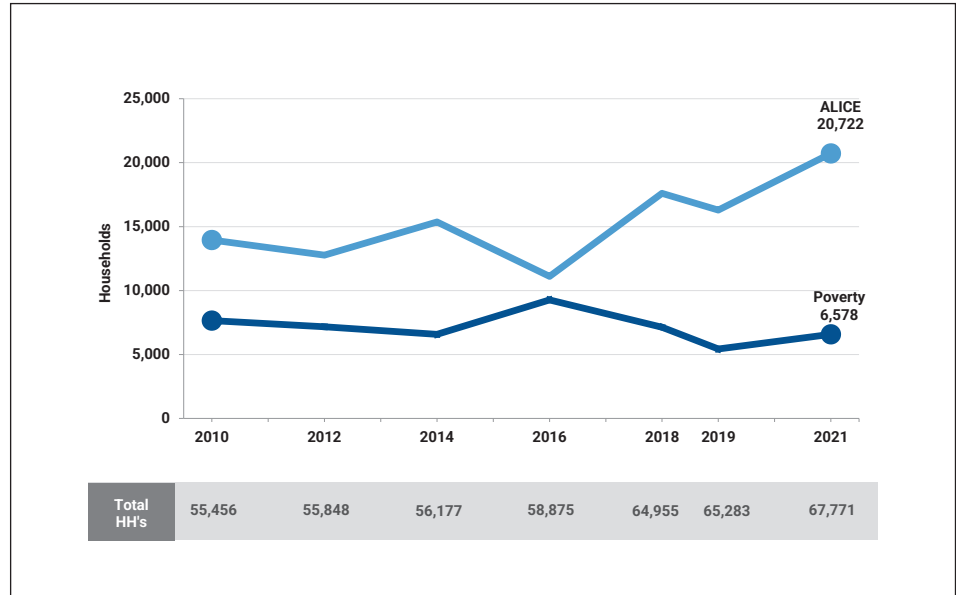

Population: 179,789 • **Number of Households:** 67,771 (4% change from 2019)
Median Household Income: \$67,593 (state average: \$66,474)
Labor Force Participation Rate: 61.7% (state average: 63.1%)
ALICE Households: 31% (state average: 32%) • **Households in Poverty:** 10% (state average: 11%)

Financial Hardship Changes Over Time

ALICE is an acronym for **A**sset Limited, **I**ncome **C**onstrained, **E**mloyed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the county (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

As circumstances change, households may find themselves below or above the ALICE Threshold at different times. While the COVID-19 pandemic brought employment shifts, health struggles, and school/business closures in 2021, it also spurred unprecedented public assistance through pandemic relief measures. In 2019, 21,724 households in Kootenai County were below the ALICE Threshold; in 2021 this number changed to 27,300, (a 26% change).

Households by Income, Kootenai County, 2010–2021

The Cost of Basics Outpaces Wages

The Household Survival Budget reflects the minimum cost to live and work in the modern economy and includes housing, child care, food, transportation, health care, a smartphone plan, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the county level and varies by household composition, as costs can vary greatly depending on location and household needs.

In 2021, household costs in Kootenai County were well above the Federal Poverty Level of \$12,880 for a single adult and \$26,500 for a family of four.

The Household Survival Budget reflects the minimum cost to live and work in the modern economy and includes housing, child care, food, transportation, health care, a smartphone plan, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the county level and varies by household composition, as costs can vary greatly depending on location and household needs.

In 2021, household costs in Minidoka County were well above the Federal Poverty Level of \$12,880 for a single adult and \$26,500 for a family of four.

To see costs for different household compositions in Minidoka County, visit UnitedForALICE.org/Household-Budgets/Idaho

Financial Hardship is Not Evenly Distributed

Groups with the largest number of households below the ALICE Threshold tend to also be the largest demographic groups. However, when looking at the percentage of each group that is below the ALICE Threshold, some groups are more likely to be ALICE than others.

By addressing the disparities in financial hardship by county demographics, community members can move toward more equitable solutions.

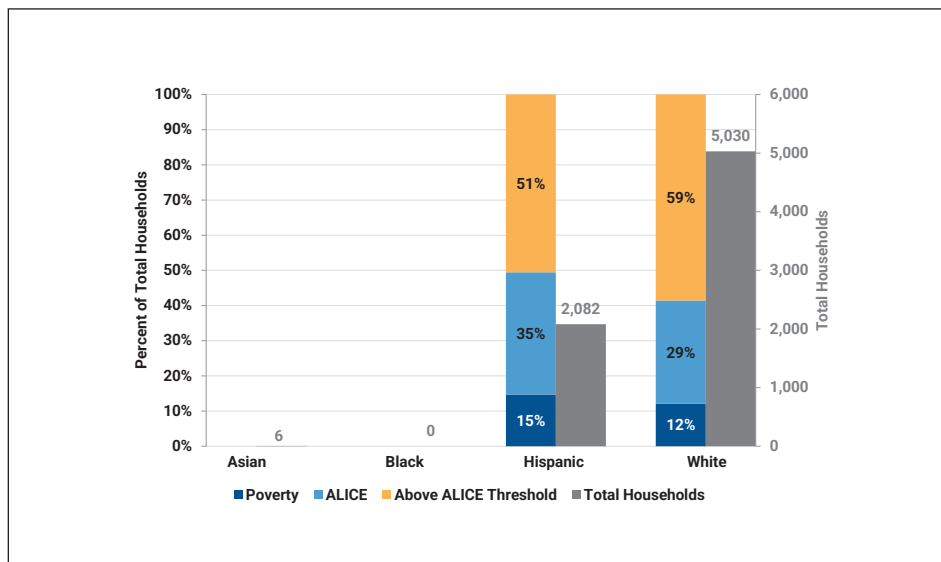

Visit UnitedForALICE.org/Idaho to view more national, state, and county data.

Household Financial Status by Household Type, Minidoka County, 2021

ALICE IN NEZ PERCE COUNTY

2021 Point-in-Time Data

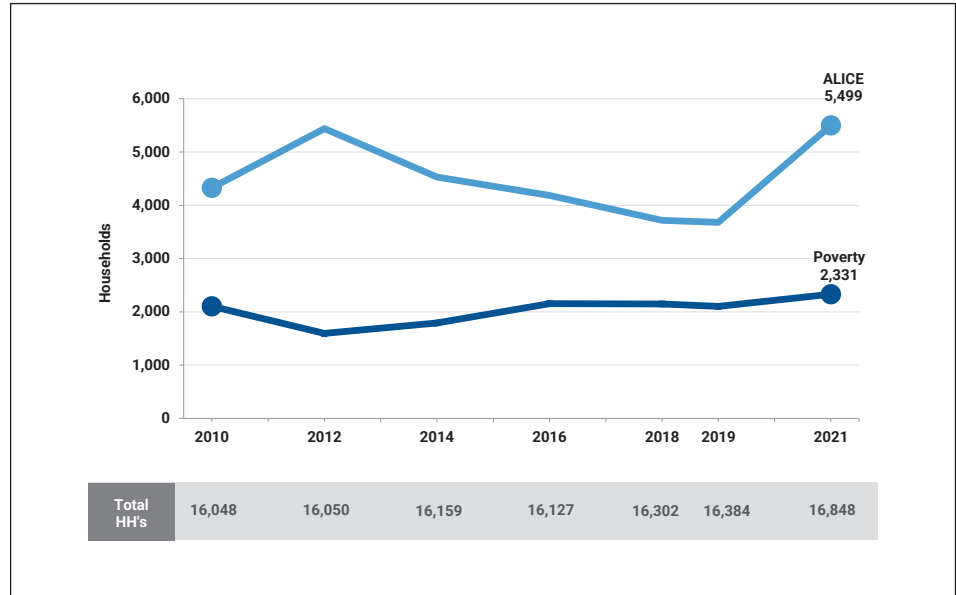

Population: 41,820 • **Number of Households:** 16,848 (3% change from 2019)
Median Household Income: \$61,810 (state average: \$66,474)
Labor Force Participation Rate: 61.6% (state average: 63.1%)
ALICE Households: 33% (state average: 32%) • **Households in Poverty:** 14% (state average: 11%)

Financial Hardship Changes Over Time

ALICE is an acronym for **A**sset **L**imited, **I**ncome **C**onstrained, **E**mloyed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the county (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

As circumstances change, households may find themselves below or above the ALICE Threshold at different times. While the COVID-19 pandemic brought employment shifts, health struggles, and school/business closures in 2021, it also spurred unprecedented public assistance through pandemic relief measures. In 2019, 5,783 households in Nez Perce County were below the ALICE Threshold; in 2021 this number changed to 7,830, (a 35% change).

ALICE IN TETON COUNTY

2021 Point-in-Time Data

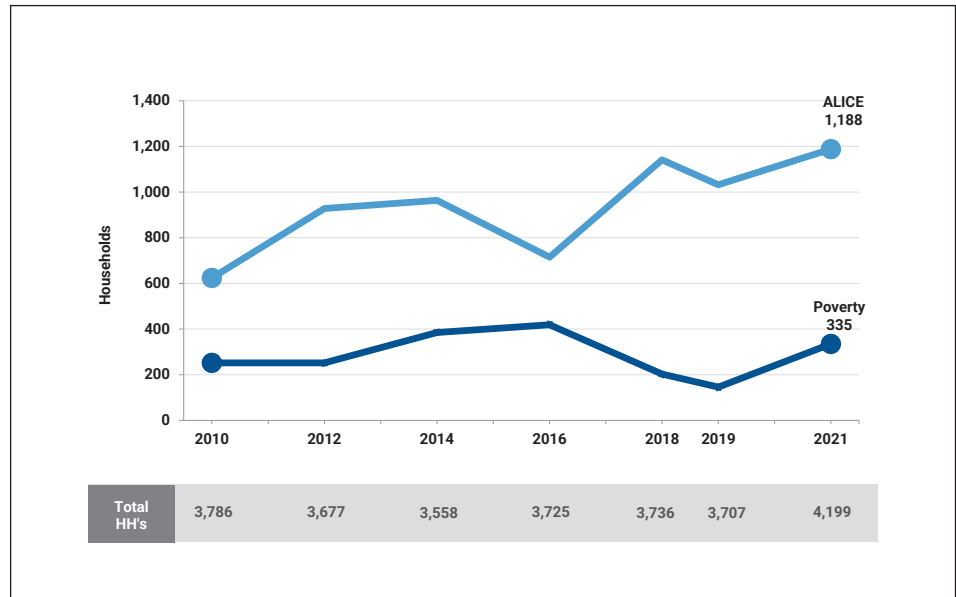

Population: 11,490 • **Number of Households:** 4,199 (13% change from 2019)
Median Household Income: \$75,837 (state average: \$66,474)
Labor Force Participation Rate: 73.1% (state average: 63.1%)
ALICE Households: 28% (state average: 32%) • **Households in Poverty:** 8% (state average: 11%)

Financial Hardship Changes Over Time

ALICE is an acronym for **A**sset **L**imited, **I**ncome **C**onstrained, **E**mloyed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the county (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

As circumstances change, households may find themselves below or above the ALICE Threshold at different times. While the COVID-19 pandemic brought employment shifts, health struggles, and school/business closures in 2021, it also spurred unprecedented public assistance through pandemic relief measures. In 2019, 1,178 households in Teton County were below the ALICE Threshold; in 2021 this number changed to 1,523, (a 29% change).

Households by Income, Teton County, 2010–2021

The Cost of Basics Outpaces Wages

The Household Survival Budget reflects the minimum cost to live and work in the modern economy and includes housing, child care, food, transportation, health care, a smartphone plan, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the county level and varies by household composition, as costs can vary greatly depending on location and household needs.

In 2021, household costs in Teton County were well above the Federal Poverty Level of \$12,880 for a single adult and \$26,500 for a family of four.

To see costs for different household compositions in Teton County, visit UnitedForALICE.org/Household-Budgets/Idaho

Financial Hardship is Not Evenly Distributed

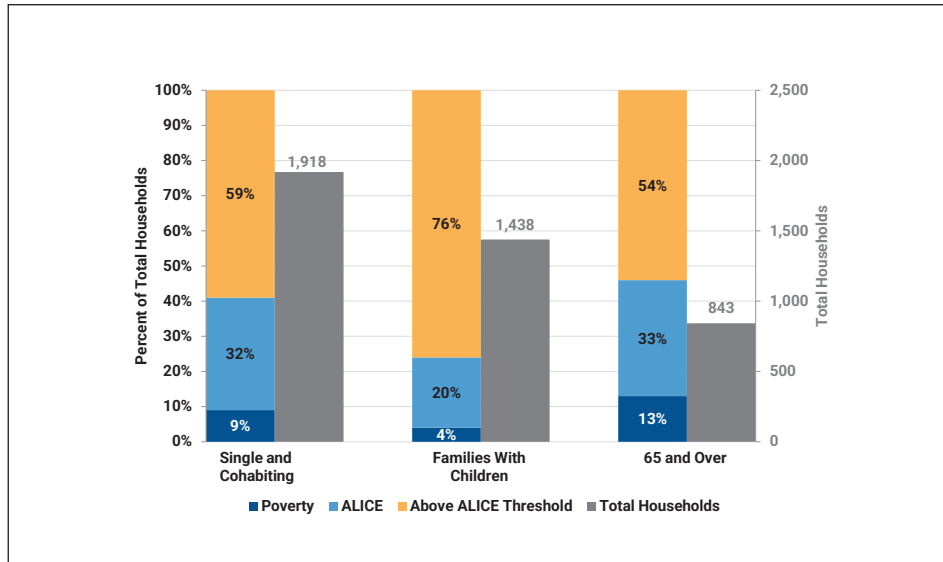

Groups with the largest number of households below the ALICE Threshold tend to also be the largest demographic groups. However, when looking at the percentage of each group that is below the ALICE Threshold, some groups are more likely to be ALICE than others.

By addressing the disparities in financial hardship by county demographics, community members can move toward more equitable solutions.
